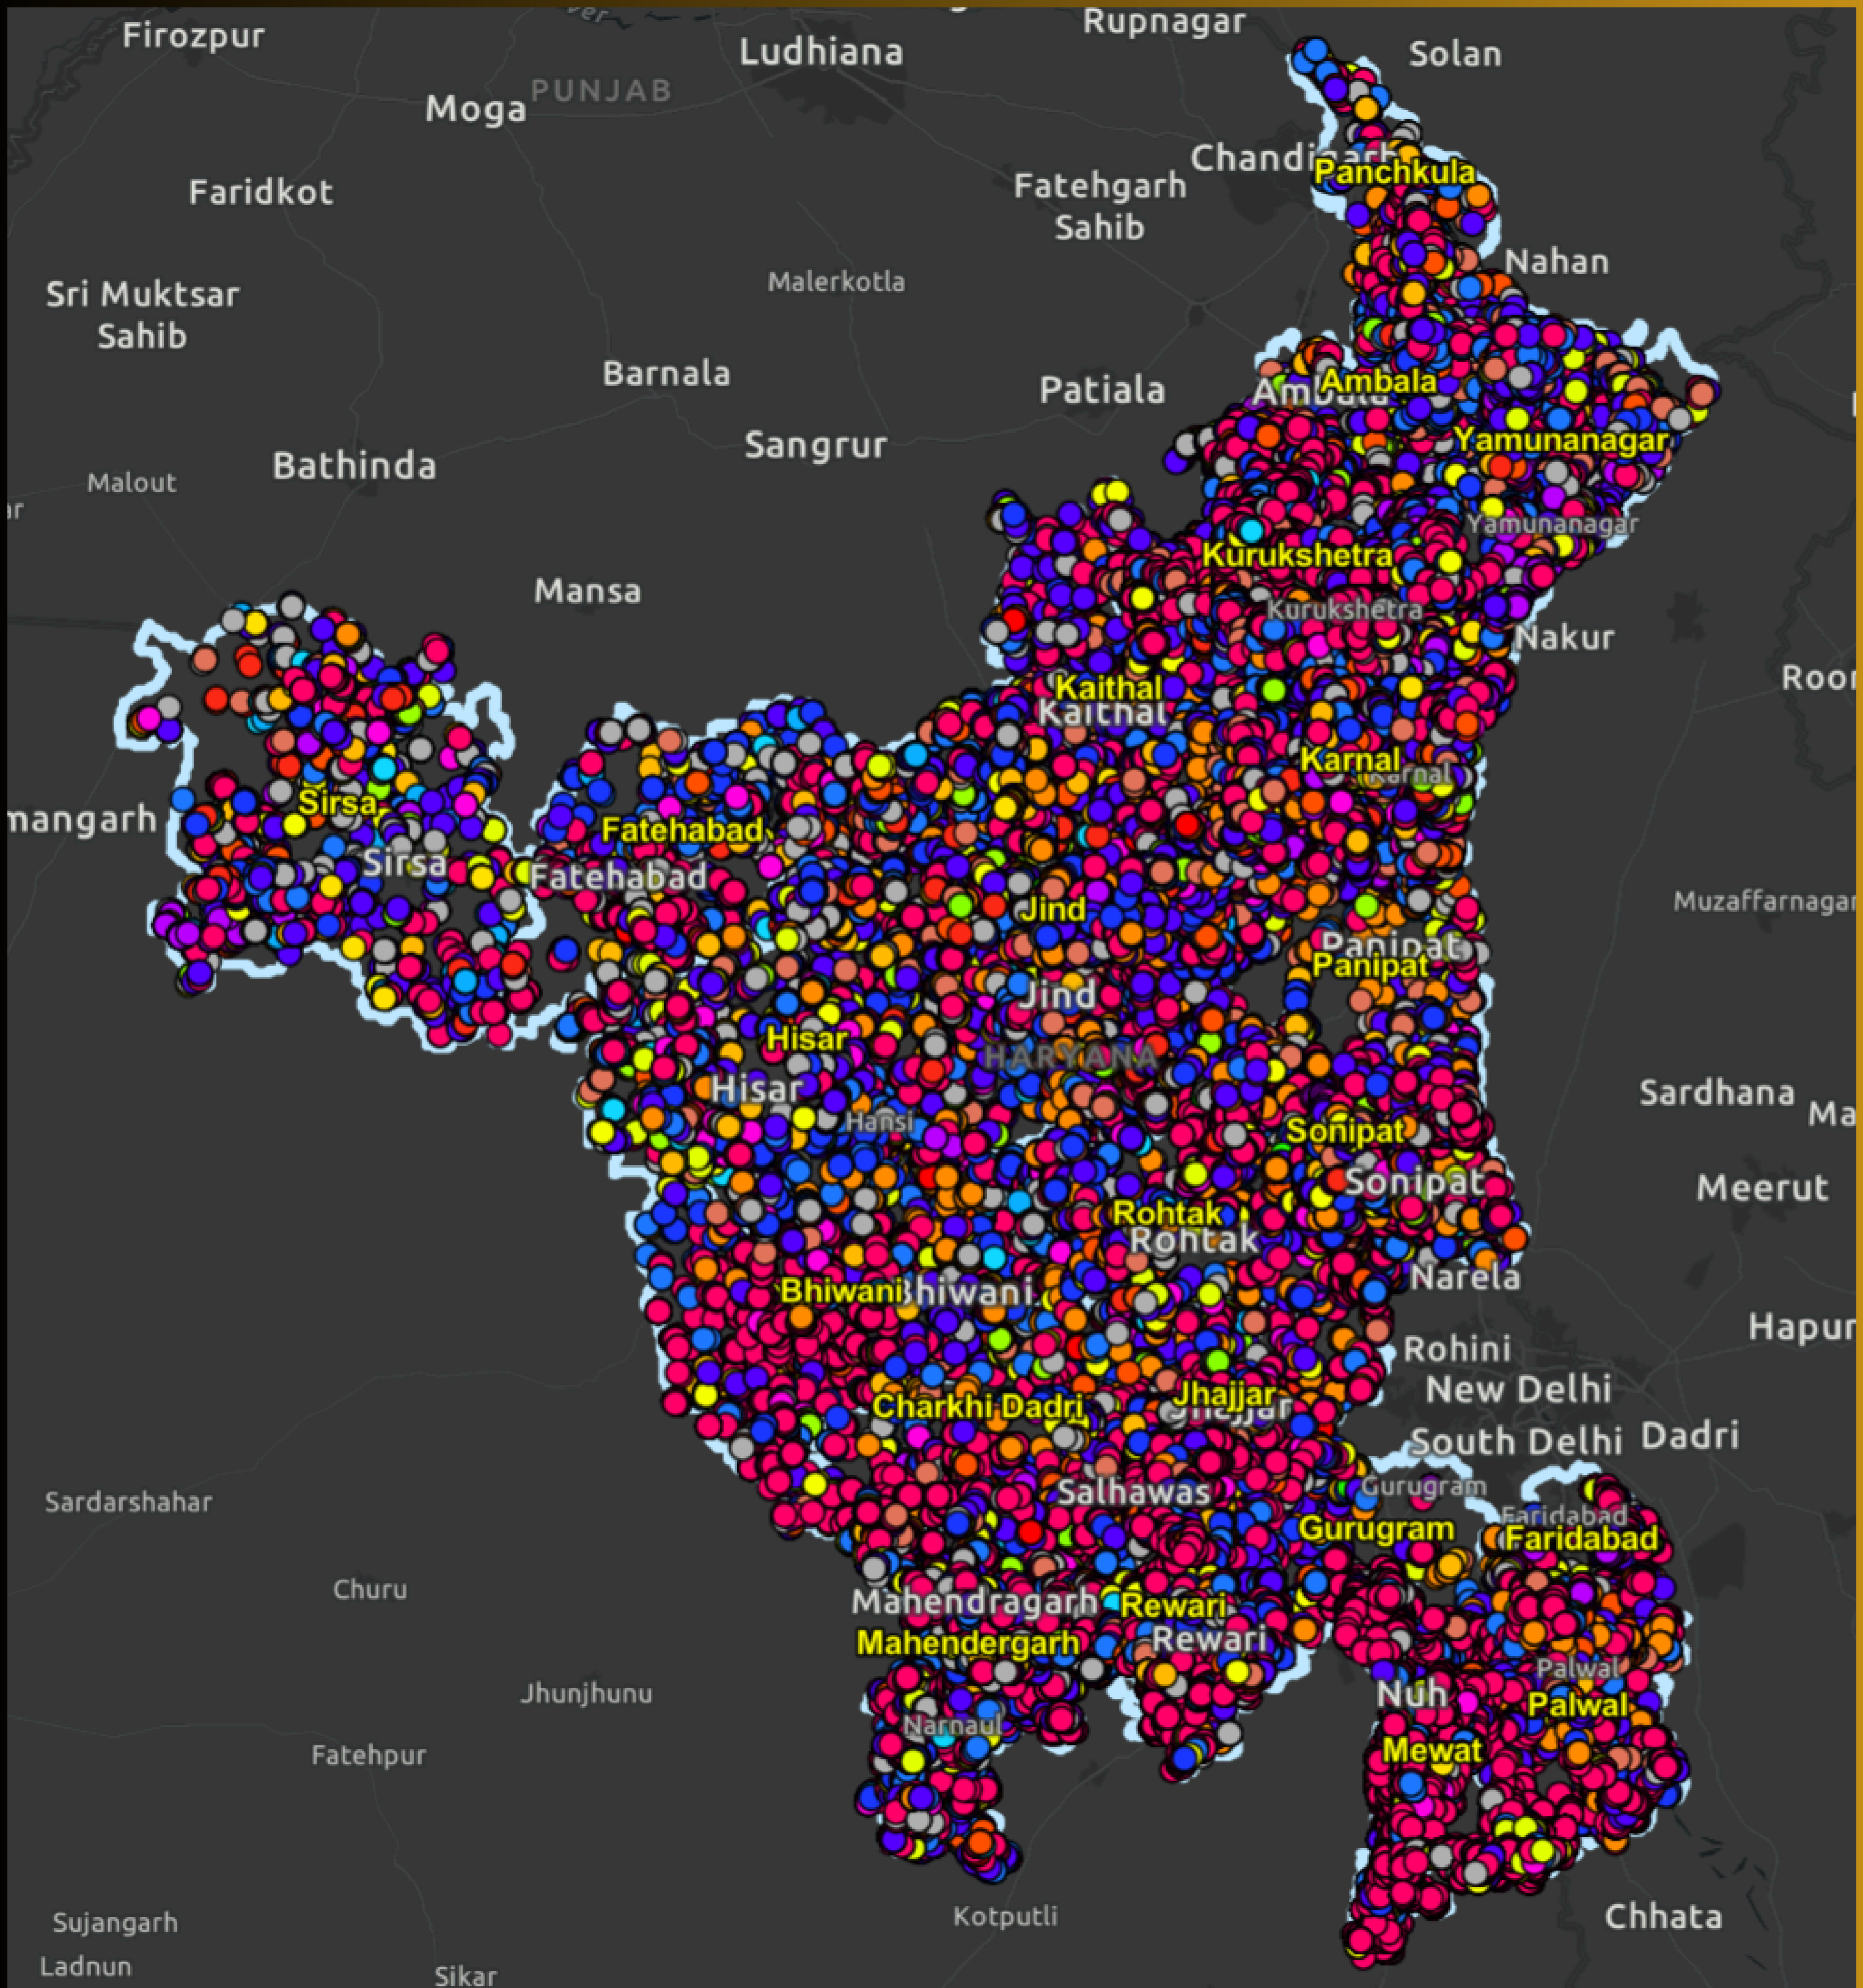

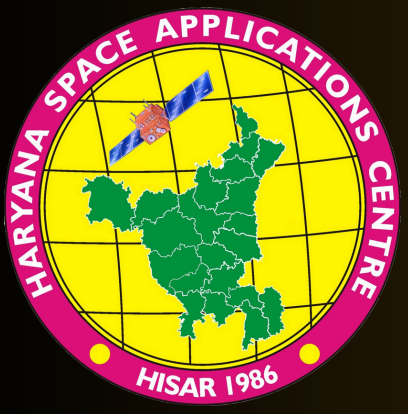

Mapping of Panchayat Assets in Haryana

Benefits

The benefits of Panchayat Asset Mapping are:

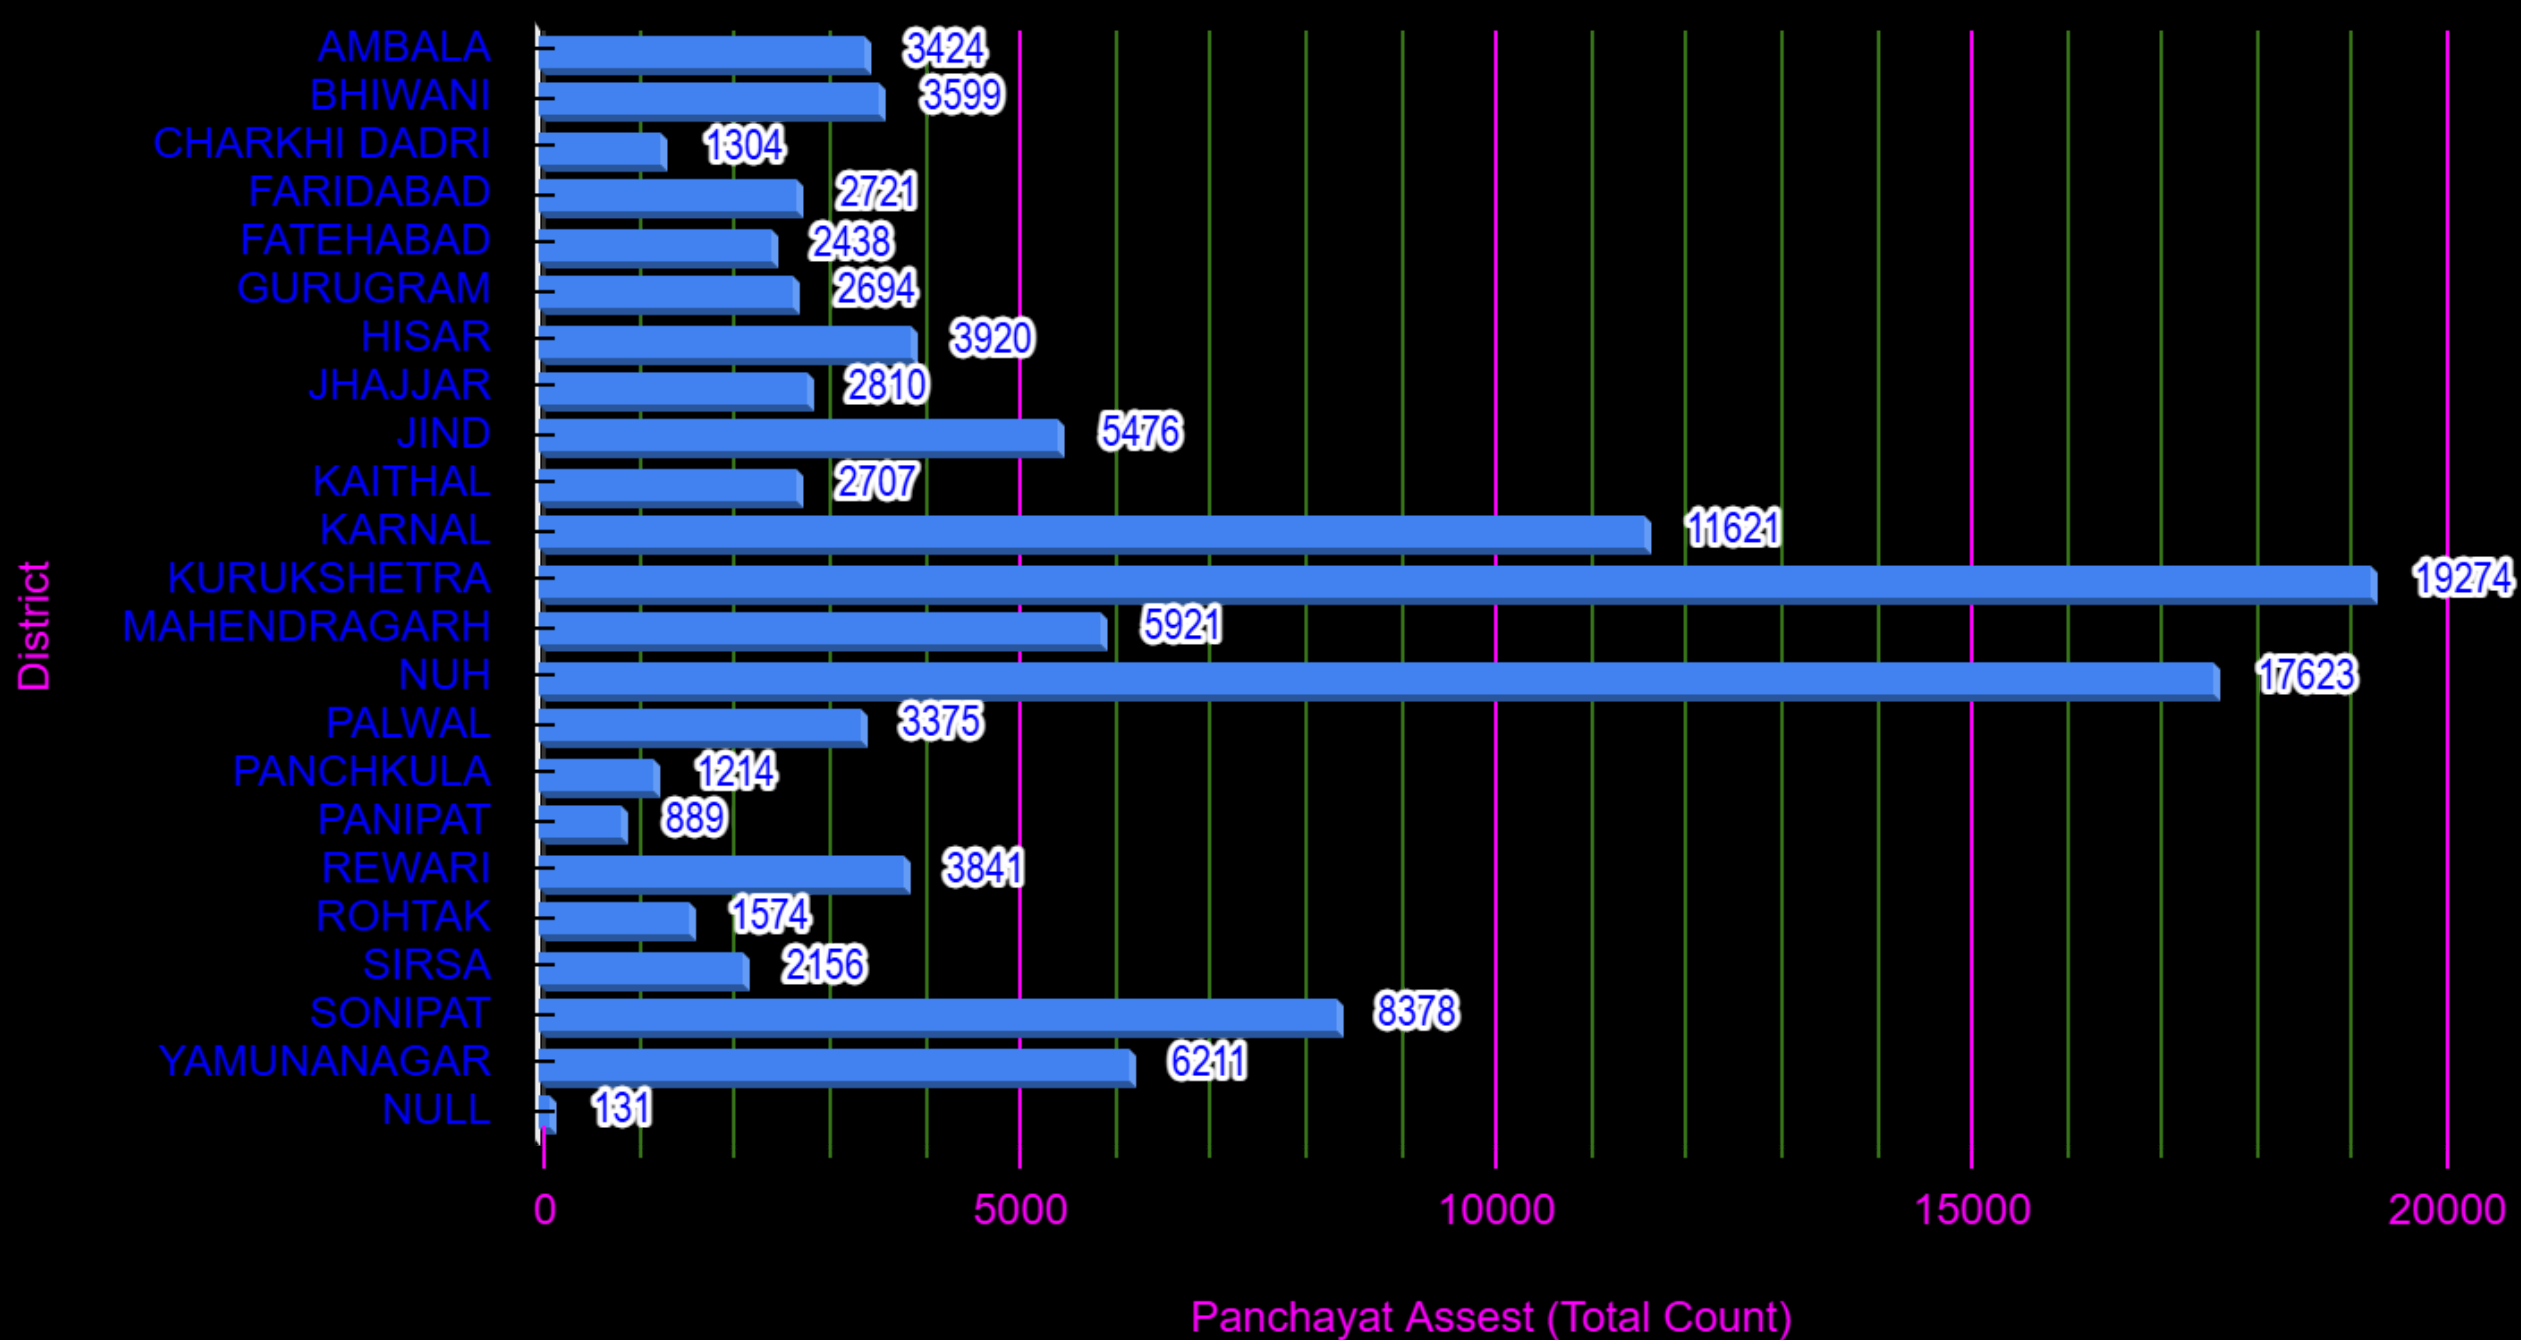

- Promotes Transparency and Accountability: The platform is accessible to citizens, fostering social audit and unprecedented transparency.
- Optimizes Resource Allocation: It empowers state and district administrations to optimize resource allocation and monitor development projects.
- Enables Data-Driven Planning: The state moves from a siloed, schematic model to a transparent, evidence-based, and data-driven planning model.
- Ensures Equitable Development: It helps identify regional disparities and ensures balanced socio-economic development across all 22 districts.
- Creates a Unified Platform: It systematically maps all government assets, natural resources, and Panchayat/ULB finances across the state to create a unified Geospatial and Fiscal Governance Platform.

Utilization in G-Governance:

Panchayat Asset Mapping is used in G-Governance by:

- Creating a Unified Platform: It systematically maps all government assets, natural resources, and finances to establish a single Geospatial and Fiscal Governance Platform.
- Enabling Data-Driven Planning
- Optimizing Resource Allocation: It empowers the administration to efficiently allocate resources and monitor development projects.
- Promoting Transparency and Accountability: It is accessible to citizens through a public portal, allowing for social audit and greater transparency in governance.
- Ensuring Equitable Development: It helps identify regional disparities to ensure balanced socio-economic development.

Panchayat Assest (Total Count) vs. District
